2010

RACE

"SINISALO MX 2010 CATALOGUE"

The tradition of Sinisalo goes back to the 80's and beyond, and continues now even more strong as a part of the Finnish corporation, L-Fashion Group Oy.

As a concrete proof of this we now present the new styles of Off-Road gear for the Motocross, Enduro, and the ATV riders for the 2010 season.

The desirable designs together with the good fit provide you comfort and protection for your rides. The youngest riders will again find their gear. The sizes start already from 20" waist.

The traditional Sinisalo quality means a lot to the rider, and Sinisalo customer service is there to help you all along during the season. Look up the dealer near you and check the newest **Sinisalo gear.**"

CONTENTS

SCD pro series

- 6 - SCD jersey
